## STANDARDS MASTERY GRADING

### WHAT IS IT?

I will assess your degree of mastery--which means an 80% or higher--on each of the state-level standards we cover this semester. You can redo all standards mastery assignments multiple times until you achieve mastery.

### HOW IS IT SCORED?

M = Missing	3 = 80-89%
1 = 0-69%	4 = 90-100%
2 = 70-79%	

### HOW WILL IT AFFECT MY GRADE IN IC?

These assignments account for only 1/5 of your nine weeks grade, and you are allowed to increase your mastery percentage with retakes. This means you can always improve your grade!

## CONSEQUENCES

Cheating or plagiarism results in a ZERO and a disciplinary referral. Cheating is defined as:

- Sharing your work
- Working together on independent assignments
- Copying someone else's work
- Copying from online sources

1st Offense = Warning  
 2nd Offense = Call Home  
 3rd or Severe Offense = Referral

ISS is always my last resort. I will call home if you receive a referral or if I assign harsher consequences.
